EDUCATION

- Chitkara University** Punjab, India
Bachelor of Engineering, Specialization in AI, CGPA: 9.15 July 2022 - June 2026

SKILLS

- Programming Languages:** Java, Python, JavaScript, TypeScript.
- Frameworks/Libraries:** Pandas, Numpy, Matplotlib, Scikit-learn, Pytorch, Flask, Tailwind CSS, Node.JS, React.JS, Express.JS, Zustand, NLP, OpenCV, FastAPI, LangChain, LangGraph, Pytest, Playwright.
- Artificial Intelligence:** Machine Learning, Deep Learning, GenAI, RAGs, AI Agents / Agentic Workflows, MCP.
- Tools/Others:** AWS, GIT, MySQL, SQLite, MongoDB, PowerBI, ComfyUI, Vector Databases, Knowledge Graphs.

EXPERIENCE

- EightfoldAI** Bangalore, India
SDET Intern February 2026 - August 2026
 - Achievements:** Built autonomous AI testing systems and internal tools, and hardened the current test framework.
 - * **Proctor (Autonomous Interview Agent):** Built an AI candidate-bot that joins live interviews over LiveKit voice, completes them end-to-end, and grades the interviewer via a 13-judge framework.
 - * **RTM config generator:** Implemented an end to end config generator based on RTM data effectively reducing the manual workload by 50% and boosting the accuracy by another 15%.
 - * **Qatch QA Automation Framework:** Contributed to an API automation framework covering 90+ modules (500+ TCs, 7,500 parametrized runs) across TA and TM, cutting manual regression effort and surfacing product bugs.
 - * **Engineering Automation Skills:** Created Playwright UI-test and Airflow DAG generators that automate test/DAG creation with locator auto-discovery, DB validation, and a 14-point pre-ship check.
- Ikarus 3D** Chandigarh, India
Software Developer Associate April 2025 - January 2026
 - Achievements:** Worked on various projects and also made some automation tools used in the company itself.
 - * **Custom intent based salesbot:** Created an intent based custom AI chatbot that upsells products to the user.
 - * **SwatchAI:** A full-stack AI tool for realistic furniture replacement using YOLOv8, Stable Diffusion, and ComfyUI.
 - * **Custom Image Compressor and De-compressor:** Reduced the image load time from around 1800 ms to 100-300 ms by creating a new file format (txcmp) with compression levels reaching upto 98% along with zero loss.
- Social Winter of Code** Remote
Mentor January 2025 - March 2025
 - Achievements:** Mentored 4 different projects with different tech stacks.
 - * **DL-Simplified:** An open source repository containing beginner to advanced deep learning projects.
 - * **HungryBox:** A scalable tiffin delivery service platform built on MERN.
 - * **Dataverse:** A versatile software designed to simplify data management, analysis and visualization.
 - * **Walkez:** A MERN based platform to enhance the safety of pedestrian mobility ensuring safe routes and navigation.

PROJECTS

- IntelliRAG - Your Own AI Research Assistant** July 2025
Streamlit, Python, Langchain, Tavily API, Llama3.2, Gemma3, Local RAG
 - Offline RAG System:** Built a local AI-powered assistant for document Q&A and web-based knowledge retrieval.
 - Multi-Model Support:** Integrated Gemma3 for conversational AI and Llama3.2 for document analysis.
 - Real-Time Web Access:** Incorporated Tavily API to scrape the web and augment AI answers with real-world data.
- LogicLink - Multipurpose Discord Bot** Dec 2023
Python, SQLite, Docker, Discord.py, Wavelink
 - Bot Automation:** Automated moderation, music playback, and community engagement in multiple servers.
 - Unified Utility:** Consolidated roles of various bots into one system to simplify server management.
 - Persistent Storage:** Implemented persistent user and server data storage with SQLite.
- DevConnect - Interactive Developer Playground** Nov 2024
ReactJS, ExpressJS, MongoDB, Hugging Face, Socket.IO
 - MERN Stack Platform:** Built a community-driven developer collaboration tool.
 - NSFW Detection:** Integrated Hugging Face NSFW detection model to ensure platform safety.
 - Scalable Architecture:** Designed server structure for developers to collaborate based on tech stack preferences.

HONORS AND CERTIFICATIONS

- Deep Learning Specialization by DeepLearning.AI (Coursera):** Certificate Link
- Introduction to Data Analytics by IBM (Coursera):** Certificate Link
- Sign Language Assisting Gloves:** Patented sign language assisting gloves that can help users to communicate with deaf.
- Got selected as one of the top 50 finalist teams in Bajaj Finance Hackathon 2024.
- Made it to top 5 teams in Joget Hackathon.
- Finalist in AICreate competition.
